

# Customer training pathway: iTero Element Flex Certified Pre-Owned

## General practice

This training program was designed to build your knowledge and scanning skills.  
Completing all steps leads to scanning efficiency and confidence.

### Step 1: Simplified setup and integration

Setup laptop, wand with hub and download checklist

- Make it Mine tutorial*
- Print checklist*

### Step 2: Learn to scan and use the software

All staff/doctors who will scan, please watch:

- iTero Overview*
- Lab workflow*
- MyiTero.com introduction*
- Full-arch scanning*
- Scanning a Single-unit crown*
- Digital scanning for the general practice live training*

### Step 3: Expand your knowledge

Watch peer-led webinars, download printable workflow guides, attend group live or on demand sessions with an iTero certified clinical trainer available to answer any of your questions include:

- Restorative scanning*
- Full-arch scanning*
- Implant scan body scanning*
- iTero view/occlusogram/Timelapse and myitero.com*
- Tips for scanning speed and efficiency*

**Congratulations, your training is now complete! Please keep practicing to build skills and access other assets in LearniTeroElement.com to continue building your knowledge.**
